

Energy and System studies projects

Serial	Project name	Start date	Finish date	Location	Scope of work	Client
1	Consultancy services for supervision on some part of designing and manufacturing of SVC project	2010	2010	Tehran	Consulting and engineering services	TAVANIR Co.
2	Engineering services to provide and develop a simulation software for testing island performance of power plant	2010	2011	Tehran	Consulting and engineering services	MAPNA Co.
3	Application of facts devices in Iranian national grid	2010	2011	Tehran	Research consultancy services	TAVANIR Co.
4	Supervision on system studies for Anzali billets harmonic filters	2010	2010	Tehran	Consulting and engineering services	Anzali billets industrial and manufacturing complex Co.
5	Engineering services and consultancy for Tehran-Mashad railway electrification project	2008	2008	Tehran to Mashad	Consulting and engineering services	Islamic Republic of Iran railways
6	Consulting services for supervision of designing and manufacturing of Lengeh port SVC project	2008	2009	Lengeh port	Consulting services	TAVANIR Co.
7	Studies and research services for Iran's power system	2010	2010	Tehran	Studies and research services	MECO
8	Studies and research services for South Pars centralized power plant	2009	2009	Tehran	Studies and research services	MECO
9	Feasibility studies and PST optimal placement in national power grid	2009	2010	Tehran	Feasibility studies and consultancy services	Iran Grid Management Company
10	SMP (Spot Market Pricing)	2010	2010	Tehran	Consulting and engineering services	Iran Grid Management Company
11	ADR (Alternative Dispute Resolution)	2010	2010	Tehran	Consulting and engineering services	Iran Grid Management Company
12	Iranian power and gas networks studies and feasibility studies on reducing fuel consumption	2009	2010	Tehran	Feasibility studies and consultancy and engineering services	National Iranian Gas Export Co./ EGLAG
13	10 year master plan studies of generation, transmission and RDC network			Tehran	Studies and research services	Tehran Regional Power Company
14	Studies for grid connection of south Mobarakeh steel plant	2011		Isfahan	Studies and research services	Mobarakeh Steel
15	Studies for providing thermal energy of Nossod and Nodsheh cities and villages around	2011		Kermanshah	Feasibility studies	Kermanshah gas company
